NON-EXPLOSIVE COMBINATION BURNING FLUID

THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN THE WORLD!!

No more Exploded Cans!—No more Exploded Lamps!
No more Smoke!—No more Grease!
No more Fires!!

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!

IT costs less!—It lasts longer!—Gives a more Brilliant Light!—May be burned in hand lamps, without chimney.

Guaranteed to make a better and safer Light than Coal oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivaled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

Testimonials without number from citizens of this, as well as those of other States might be published, but the above is sufficient. Any person having the right can make 8 to 10 bbls., of the Fluid in an hour.

A HEROIC REMEDY!

HENRY'S

CARBOLIC

CONSTITUTION

RENOVATOR!

Based on Science. Prepared with skill, and all the available ingenuity and experience, that the art of pharmacy of the present day can contribute. And

CONTAINS IN CONCENTRATED FORM THE MOST VALUABLE VEGETABLE JUICES Known in the history of Medicines for

PURIFYING THE BLOOD,

Imparting

NUTRITION TO THE SYSTEM,

Tone to the Stomach,

And a Healthy action to the Liver, Kidneys, Secretive and Excretive Organs.

A DYING ZOUAVE

lay breathing his last on the battle field, his companions carried on and left him alone. They knew the cause of his approaching end; it was the deadly bullet. No friendly voice could cheer him to life—no human skill could save him.

Thousands of Precious Lives

are to-day as rapidly sinking, and as surely suffering on to an untimely end, in Suffering, Agony, Wretchedness, and Ignorance of the

cause which

Science can arrest and assuage,
Nourish into new Life and Vigor,
And cause the Bloom of Health
To cause once more upon their withered Cheeks.

DISEASE, LIKE A THIEF,

Steals upon its victims unawares, and before they are aware of its attack, paints itself firmly in the system, and through neglect or inattention, becomes established, and defies all ordinary or temporary treatment to relinquish its merciless grasp.

DO YOU KNOW THE CAUSE OF

The wasted form—the hollow cheek?
The withered face—the shallow complexion
The feeble voice—the sunken, glassy eye?
The emaciated form—the trembling frame?
The treacherous pimple—the torturing sore?
The repulsive eruption—the inflamed eye?
The pimpled face—the rough cutaneous air?
and debilitating ailments of the present age?

The answer is simple, and covers the whole ground in all its phases, viz: the

FANGS OF DISEASE

AND

HEREDITARY TAINT

ARE FIRMLY FIXED IN THE

FOUNTAIN OF LIFE—THE BLOOD.

The

INDISCRIMINATE VACCINATION

during the late war, with diseased Lymph, has

TAINTED THE BEST BLOOD

in the entire land. It has planted the germ of the most melancholy disease in the veins of men, women and children on all sides, and nothing short of

A HEROIC REMEDY

will Eradicate it root and branch, forever. Such a Remedy is

HENRY'S

CARBOLIC

CONSTITUTION

RENOVATOR.

ON REACHING THE STOMACH, it assimilates at once with the food and liquids therein, and from the moment it passes into the Blood, it attacks the disease at its innermost head, in its germ and maturity, and dissipates it through the avenues of the organs with unerring certainty, and sends NEW AND PURE BLOOD BOUNDING THROUGH EVERY ARTERY AND VEIN.

The tubercles of Scrofula that sometimes flourish and stud the inner coating of the abdomen, like kernels of corn, are withered, dissolved and eradicated and the diseased parts nourished into life. The Torpid Liver and Inactive Kidneys are stimulated to a healthy secretion, and their natural functions restored to renewed health and activity.

Its action upon the blood, fluids of the body, and Glandular System, are

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, APRIL 29, 1870.

SWIFT VERSUS TARDY JUSTICE.

In New York, recently, John Brennan knocked down a man named Marsh and robbed him of his watch. The next day he was tried, convicted, and sent to the Penitentiary for fifteen years and six months.—The Governor of New York did not pardon him.

On the 7th of January 1868, Wm. Beattie stole Wyatt Hollemon's mule and gray mare. At the Spring term of the Superior Court 1870, he was tried, convicted and sentenced to five years in the Penitentiary. In two hours after the sentence was passed, and before the Sheriff could take him to the Penitentiary, though only a mile off, the Governor had pardoned him.

Beattie and the Governor both belong to a secret political society, and are bound to each other by horrid black oaths. Do you see the point?

In Orange, Judge Tourgee on the Bench, Dennis Hanes was convicted of stealing shoes and boots. Tourgee, being an ex President of the League, set the verdict aside, declaring there was not a particle of evidence to convict the defendant. At the next term of the Court, Dennis was again convicted; and again the Judge set the verdict aside, and allowed the prisoner to depart without bail. At the next term Dennis failed to appear, and the Judge was saved the repetition of the shame of setting aside another verdict, or the Governor of pardoning out another convicted brother leagueman.

In New York they have no ku klux; in North Carolina they have.

With John Ragland, Chicken Stephens, Laffin and carpet-bag Davis to make laws; Judge Tourgee and Judge Watts to expound them, and Holden to execute them, New York would be full of ku klux in ninety days.

GENERAL CLINGMAN.

We could fill all our available space, every day, with communications from Gen. Clingman's old comrades in arms and brother Democrats, who are intensely disgusted at the old man's course. We are compelled to omit much that comes to us in reply to his address and letters, because it would occupy too much space in discussing dead issues and a dead man.

The General complains, in his "advertisement," of "A Citizen of Yancey," for allusions to his course; we therefore give that correspondent, to-day a chance to be heard. The writer is well known to the General.

General Clingman has always worn his political garments in a very loose and ugly shape, much after the fashion of Holden.

These two model politicians began political life together, though Clingman was much the older man. They first attracted public notice by their musical efforts in lauding

"Tippecanoe and Tyler too,"

accompanying their songs with drinking hard cider, eating red pepper and riding in log cabins, adorned with 'coons and coons, in 1840.

They both "sold out" when the Whigs began to lose the ascendency. They hallooed together for secession in 1856 and 1860, and threatened to visit the house of every man with a vigilance committee who refused to secede with them.

They both called the war "God's holy cause."

Now they are engaged, with carpet-bag vagabonds, in making "treason odious."

These two old political sinners, wire-workers and demagogues, have been hand in hand with the "Ring" in dishonoring the State bonds and ruining the State credit.

The people no longer confide in them, nor listen to them with patience or respect.

The elections next August will consign both to that political grave from which there is no resurrection. Hand in hand they will be called before the Bar of Public Opinion, and, for the last time, without ceremony, without sigh, tear or regret, they will be consigned to that bourne from which no political demagogue ever returns.

Buried in rottenness and scum,
"Unwept, unhonored and unsung,"

Their lives exhibiting that remarkable vicissitude alluded to by Pope—

"Coached, carted, trod upon; now loose, now fast,
And carried off in some dog's tail at last."

AGRICULTURAL.

We call the attention of our readers to the Address of K. P. Battle, Esq. President of the State Agricultural Society, published to day.

There is a considerable time to elapse before the next State Fair, but, long as it may appear, it is too short for us to make the Fair what it should be, unless it be diligently improved.

We are glad to see the President moving thus early in the matter; we hope he will be able to inspire our people with a just sense of the importance of the subject, and of the necessity of a radical change in our system of husbandry.

The farmers of North Carolina strike hard blows, but they do not strike with skill; their strokes are not guided by science. They do not combine enough of the intellectual with the physical. They are not yet convinced of the truth that it requires more of skill, labor, energy, capital and enterprise to conduct farming operations properly and profitably than it does to prosecute almost any other calling.

Our farmers, too, are greatly behind the age in the use of improved and labor saving agricultural implements, and State and County Fairs are excellent occasions for gaining the necessary information for improvement in this respect, and to bring our people up to the improvements of the day.

We hope to see the efforts of the officers of the State Agricultural Society to make the next Fair a grand occasion for improving the Agricultural interests of the State, seconded by the members, and by all the people from one end of the State to the other. Let everybody now begin the making of preparations for coming, and bringing something for exhibition to our next State Fair.

For the Sentinel.

MR. EDITOR:—My attention was directed on yesterday to the "advertisement" of the Hon. T. L. Clingman, in the *Standard* of the 23rd inst. Advertisement! Well, this is funny. The idea that Mr. Clingman should advertise himself in the *Standard* is absolutely laughable. Like the inventors of patent medicines, he exhibits the article to the best advantage.

Mr. Clingman complains at being charged with making contradictory statements in regard to the removal of his disabilities. How he can do this in face of the facts is a mystery to me. He cannot deny saying in his application of the 24th of February, that he had before (that is, before the 24th of February) requested the "Hon." Deweese to procure the removal of his disabilities. This it appears from his own showing that he inaugurated the movement for the removal of his political disabilities. Yet he says, in his letter to the *Standard* of the 4th inst., that others moved in the matter of their own will, without any solicitation on his part. Now I would ask the candid reader, can a man move in a matter for his own relief, and afterwards say, others moved in the same matter without any solicitation on his part? Before the 24th of February last, Mr. Clingman requested the "Hon." Deweese to move in the matter in question, and to request is to solicit.—Yet he says, over a month afterwards, the movement was made without his solicitation. I repeat, therefore, if what Mr. Clingman said on the 24th of February in relation to the removal of his disabilities be true, what he said on the 4th inst. in relation to the same matter cannot be true, and *vice versa*.

Mr. Clingman pretends to suppose that the anonymous communication in the SENTINEL of the 21st inst., was written in the interest of the Hon. A. H. Jones. For this supposition Mr. Clingman draws exclusively on his imagination, but when occasion requires it, Mr. Clingman's imagination is remarkable for its fertility. I here state, once for all, that the article in question, was not written in the interest of Mr. Jones, nor did he have any connection with it.—Certainly Mr. Clingman goes considerably out of his way to make this charge, since it clearly appears from the anonymous article itself, that no allusion whatever was made to Mr. Jones. But this charge was intended to affect Mr. Jones, and not the anonymous writer. I believe Mr. Clingman is actuated in this matter entirely from a feeling of revenge towards Mr. Jones, because Mr. Jones would not harmonize with him in certain doubtful railroad transactions. It is known that I am politically opposed to Mr. Jones, yet simple justice requires me to say that I do not now believe he has ever had any criminal connection with the recent railroad swindles in North Carolina. I will not venture to say this much for Mr. Clingman. He can say it for himself if he wishes to, and I will think as I please.

Mr. Clingman says certain objections to his course are so feeble as to be scarcely able to merit a passing notice. Then I would ask why does the honorable gentleman squirm so when these feeble objections are made?

In Mr. Clingman's late "advertisement," he announces that he does not remember ever to have written a political paper which was so generally approved. Truly, this is an announcement I have not had the pleasure of seeing before in any newspaper in, or out of the State, nor have I heard it from the lips of a solitary person. Since this is the fact, I will excuse Mr. Clingman for "sounding his own horn."

Mr. Editor, I take this occasion to say that I am quite an humble citizen of the State of North Carolina. I do not aspire to any public position, and would not now, if it were offered to me, accept such position at the hands of the people. The first vote I ever gave was for the Hon. T. L. Clingman. He was then a pampered and puffed Democrat. It was after he had departed from the Whig faith. I ever afterwards supported Mr. Clingman as the acknowledged champion of the Democracy in Western North Carolina. I still claim strict adherence to, and affiliation with, the Conservative or Democratic party; but I cannot endorse as a whole Mr. Clingman's address of March 10, 1870.

I trust, therefore, an honest public will indulge me, as a non political aspirant, in giving expression to a few honest reflections, touching the several matters of which Mr. Clingman treats in his late address.

And first, railroad matters claim our attention. Mr. Clingman himself graciously acknowledges my right to discuss these matters, but whether it is my duty is a question he has left in doubt. Hence I shall proceed upon the right, and leave the question of duty to be settled hereafter.

Mr. Clingman says in his address of the 10th March, "that he announced three months since, to many members of the Legislature and others, his purpose to address the people of the State on certain subjects, but delayed, in part, to see what would be the final action of the Legislature on some of these questions. Is Mr. Clingman's reason for delay sufficient, considering the importance of the matters to be discussed? Why did he not enlighten the Legislature itself? It would have been no act of presumption on Mr. Clingman's part. If I were an ex United States Senator, and as free from egotism as Mr. Clingman, and feeling as important as he ought to feel himself, I would instruct a whole Legislature, just as quick as I would one member. Legislation, too, in North Carolina, both before and since his announcement, clearly shows that a little genuine enlightening could have done no harm. Certainly it could have made matters no worse, and it might have made them better.

But I trust the people will excuse this delay on Mr. Clingman's part, for it is well known that he acquired the habit, years ago, of following rather than leading public opinion, in other words, he was never much for molding public opinion, but was always very easily molded by it. This accounts for the frequent changes which characterize his political career. In some respects this pliant habit gives Mr. Clingman decided advantage over the most of our prominent public men. True, men of his kind are never very remarkable for originality. They are not men of great original thought. They are creatures of circumstances, and move only as they are moved upon by extrinsic force. They never originate any great public measures; and when others do, they never identify themselves with either side if they can possibly avoid it, until they ascertain the preponderance of public opinion, for or against the particular measure. But frequently they can not avoid taking sides. Their connection with public affairs is such that they are absolutely forced "to make statements" even in advance of public opinion.

For example, the State's credit is badly injured, if not hopelessly ruined, and I believe, as many others do, that Mr. Clingman is intimately connected with the prime cause. Having had "connection" with these public affairs—I mean railroad affairs—it becomes his duty to make statements. It is a special duty he owes to Mr. Clingman. But he came very near being too late this time. I believe public opinion was pretty well formed before Mr. Clingman made his statements, and it is adverse to this distinguished gentleman.—It condemns him. However, we have his statements at last, and what is the gist of them? Why! he makes the unprecedented abuse of the State's credit by Messrs. Sweep son, Littlefield and others, including Mr. Clingman, among the very least of all the causes which has operated to depress her credit. He makes the assaults of certain newspapers in the State (meaning anti radical papers) on the parties abusing the credit of the State, the prime cause of breaking it down. Well! this is altogether a new idea to me, but I suppose it is only a prelude to Mr. Clingman's new logic. It occurs to me that, if this idea holds, the way to keep up the credit of a State, is to let a railroad ring or some other ring, steal all the public funds, and the newspapers must say nothing at all about the theft—just keep perfectly quiet; in other words, to give a State credit, steal all she has and don't let the people know it. This I believe is substantially Mr. Clingman's argument, because he says the "more influential" cause was the newspaper assaults on the credit of the State; and since no such assaults have ever been made, we take it, that he means assaults on the *abuse* of the State's credit. I am not aware, neither is Mr. Clingman aware, that a solitary newspaper in the State of North Carolina has ever made an assault on the credit of the State, nor do I believe that ever a news boy would be so stupid as to attempt to sell a paper holding such views; much less probable is it, that the conductor of a newspaper would advocate such a policy. I am aware, however, that quite a number of newspapers have, from time to time, assailed the abuse and the abusers of the State's credit; but there is quite a difference in the abuse of a thing and the thing itself. A good thing may be abused. The credit of the State is a very good thing, and it has been greatly abused. But Mr. Clingman would have the people believe that the Conservative or Democratic press of North Carolina has assailed the credit of the State. Now I can not believe any such stuff as this, nor do I believe there is an intelligent man in the State who will believe it. In my opinion it is the newspaper assaults which have been made from time to time upon the abuse and the abusers of the State's credit, and not upon the credit itself, that hurts Mr. Clingman. I cannot think I hazard anything by saying, there are over a hundred thousand men in North Carolina to-day fully as anxious as he to keep up the credit of the State, and many of this number may be found in the class he would indicate. True, they may differ with Mr. Clingman in regard to the means necessary to this end. He may hold as the 1st of his argument shows he does hold, that in order to keep up the credit of the State, it is necessary for a railroad ring, or some other ring, to steal all the State has, and that the Conservative or Democratic press of the State, must say nothing about it—that the end, which is the State's credit, justifies the means, which is stealing the funds on which that credit is based.—But others less sagacious, may doubt this policy.

This was understood to be about the only merit Mr. Clingman's argument has when it is striped of the verbiage that now obscures it. Well! I have ever had very great respect for Mr. Clingman's opinions, but here I beg leave to differ with him. I object, notwithstanding my objections may be very feeble.

But suppose we were to allow, which we do not allow, that certain newspapers have assailed the credit of the State, and that this is the cause of the depression of her credit. Still I would charge Mr. Clingman with delinquency, by telling him he was too late in giving the alarm. His position would then be like that of the man who was very careful to lock his master's stable after his master's only horse was stolen. If Mr. Clingman felt called upon to give an alarm, he ought to have given it in time to prevent the mischief, without waiting to see what would be the final action of the Legislature on certain questions.

But, really Mr. Clingman shoots wide of the mark when he says that the depression of the State's credit is mainly attributable to newspaper assaults. But what is the effect of Mr. Clingman's verbose sophistry on this subject? It is to direct public attention to a certain imaginary cause, or a series of imaginary causes, operating to impair the credit of the State altogether foreign to the real cause. His position reminds me forcibly of the case of a man in a great city who sees his friend trying to escape with stolen goods. The police are after him, and seeing the danger of his friend's apprehension, he exclaims, yonder goes the thief! and it may be, he runs after the man indicated, and cries at the top of his voice, stop thief! stop thief!! The effect, as desired, is to divert the attention of the police from the *real* thief, and when the man indicated is apprehended, he is found to be entirely innocent. In the meantime the real thief has made his escape with the stolen goods, and when the danger is all over, the parties meet and divide according to previous understanding. But perhaps the man who diverted the attention of the police, was only acting as *counsel—legal adviser* of the other, and in that case, of course, would get only about *ten per cent* of the spoils. I imagine it will not be very difficult for any one to see the fitness of this figure. Hence I will leave the reader to make the application.

Respectfully, &c,
CITIZEN OF YANCEY.

Infection in the Air.

Experimental chemists have repeatedly analyzed the air at unhealthy seasons, in the hope of detecting the invisible virus which produces epidemic diseases. They have not yet discovered it and scarcely any two of them agree as to its nature. This is of little consequence. It is sufficient to know that this poisonous principle exists, and that a safeguard against its insidious influence has been provided. In the spring and early summer, when fever and ague, remittent fever, and other periodical diseases of that class are prevalent, it is only necessary to fortify the system with a course of Hostetter's Stomach Bitters to escape them. If this precaution has been neglected, which it never ought to be in any district liable to such visitations, and if the paroxysms of malarious fever have actually commenced, they may always be checked and broken up by a course of that powerful vegetable tonic and alterative. Quinine was once considered the only specific for chills and fevers; but it is now generally admitted that this nauseous alkaloid is a dangerous medicine, and that its secondary effects are more to be dreaded than any form of intermittent fever. It is simply a tremendous astring nt. It does not touch the disordered liver, or regulate the bowels, or in any way improve the condition of the animal fluids. Hostetter's Bitters, on the other hand, in addition to being a better and safer tonic than any preparation of quinine, has a balsamic effect upon the whole system. It is aperient and antibilious, as well as directly invigorating, and purifies the secretions as well a regulates the secretive organs. It stimulates the apetite, strengthens the stomach, soothes the nerves, promotes healthful perspiration, and induces quiet sleep. As a stomachic it has no rival.—Cases of indigestion that no other tonic seems capable of alleviating, are cured in a few weeks by its regular use.

MISCELLANEOUS.

WALTHAM
WATCHES.

THE EXTENSIVE USE OF THESE WATCHES for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 450 000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, as those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of whom this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which serve a testing by the most skillful artisans in our works, and long use on the part of the public demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company who, having had the refusal of all other contrivances, adopted Pogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks.

American Watch Co., - - Waltham.
Appleton, Tracy & Co., - - "

THE BROOKLYN LIFE, IS THE ONLY COMPANY IN AMERICA, WHICH GUARANTEES

DEFINITE CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks*,—upon which elements of administration the security of a Life Insurance Corporation depends.

The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and every year, *and a certain legal standard of reserve and accumulation must be held by the Companies to meet all their liabilities.*

Insurers in looking around for Companies in which to insure, should carefully seek for this important safeguard. It will be found in the BROOKLYN LIFE.

CITY AND STATE ITEMS.

FRIDAY, APRIL 29, 1870.

NEW ADVERTISEMENTS.—See the card of Hoffman, Lee & Co., 63 Exchange Place, Baltimore.

Dissolution of the copartnership between Bason & Son, at Graham, N. C.

J. M. Towles, Commission Merchants, offers on reasonable terms a number of first-rate agricultural machines and implements.

Pink Hardy is daily adding to his already splendid stock. Read his announcement under the head of "new advertisements."

TUCKER HALL.—To-night being the occasion of Miss Keene's benefit, the modern sensational Drama, "Fron Fron" will be greeted, we have no doubt, by a crowded house.

Last night the audience, though not as large as it should have been, was highly delighted at the fine style in which the Company gave the old, familiar play, "She Stoops to Conquer," all the actors sustaining their parts well.

Miss Keene and Company will go from here to Richmond next week, where they will play for the benefit of the sufferers by the late disaster there.

BASKET PIC NIC.—The Friends of Temperance are going to have a pleasant, sober day of enjoyment on Thursday 5th of May, by going on an excursion to Haywood, the present terminus of the Chatham Railroad.

Arrangement has been made with the Railroad Company for tickets, the round trip for one dollar, to be paid by each of the excursionists. A large number of ladies will join in the excursion; and the occasion will be enlivened by music by the Raleigh Brass Band, and baskets of prepared provender.

Train leaves Raleigh at 8 A. M. and returns at 6, P. M.

BREAD AND FLOUR.—In 1865 and 1866, real good flour in this city was worth fifteen or sixteen dollars a barrel, perhaps more; now, good flour can be bought for eight or ten dollars a barrel. What, we would like to inquire, has been the fall in the price of *bread?* Has that come down in proportion to the fall in the price of flour?

GOV. GRAHAM, of Orange, having been spoken of for the State Senate, desires to be excused because it is not convenient for him to serve.

WASTE OF CAPITAL.—Any one passing through the streets of this city, and perhaps, of any other city, may see numbers of men and boys, especially boys, black and white, strong and healthy, who appear to have no earthly employment for making a living, or contributing to the general welfare and prosperity of the State. Their brains and muscles thus unused, are just so much capital wasted. Many of these drones depend upon chance, or upon the overtaxed exertions of parents, for the bread they eat and the clothes they wear. They have no employment for the present and no plans for the future, but just drift along, waiting for something to turn up by which they can get gain without labor of hand or brain. Can't something be done to convert this wasting capital into some useful channel? We need some asylum or house of refuge, for the purpose of training idlers, drones and vagabonds to something useful to themselves and to the community.

The Farmer's Dollar Magazine, for April is received; address T. M. Hughes, editor, Ridgeway and take it one year on trial, it contains useful and interesting matter worth ten times the subscription price.

DEAD.—It falls to our lot to announce the death of Mr. James Lea—one of the most worthy citizens in Caswell county.—*Hillsboro' Recorder.*

CHIROPODIST.—Dr. Lindoman will remain till Saturday, April 30th, if you have Corns, Bunions and Bad Nails, dont forget he will positively only remain till the 30th of April, therefore don't play any longer if you have bad nails or corns, he cures them without pain or drawing blood.—Room, 42, Yarborough House. Ladies attended at their residence without extra charge, charges moderate. d2t.

GENERAL LEE'S HEALTH.—It will deeply pain the entire southern people to learn that some uneasiness is felt concerning the health of our noble chieftain, General R. E. Lee. A private letter from a member of the Board of Trustees of Washington College to a gentleman in this city, from which we have been kindly permitted to make the following extract, gives us some information on this important subject which will deeply interest all our readers. The writer says:

"General Lee thinks he has gained strength, but takes a despondling view of his condition, We adopted some very important resolutions for the benefit of the General and Mrs. Lee on Tuesday. We have secured the President's house and an annuity of $3,000 during her *widowhood*, should she survive the General.

"We are certainly uneasy on account of General Lee, but we are far from despondning of his ultimate recovery. You will see the resolutions referred to in a few days" —*Lynchburg News of Monday.*

Another Giant Stride has been made in chemical science. PHALON'S VITALIA, OR SALVATION FOR THE HAIR, is an astonishing improvement on all preparations for restoring the natural color of gray hair, heretofore known. It is pellucid, cooling, limpid, inodorous, and never-failing, and has no sediment. Sold by all druggists and fancy goods dealers.

Dr. Tutt's Celebrated Expectorant No Mystery How it Acts.

First it detaches from the bronchial or wind tubes the mucus or matter which, sometimes adheres to them with the tenacity of glue. Secondly, It mitigates the pain and removes the constriction of the bronchial tubes and muscles of the chest. Thirdly, It resists the progress of inflammation and assists the lungs to throw off the irritating matter which accumulates.

OFFICE N. C. AGRICULTURAL SOCIETY,
Raleigh, April 20, 1870.

To the People of the State:

At a meeting of the Executive Committee of the North Carolina Agricultural Society held to day, it was

Resolved, That the Annual State Fair, for 1870, be held on the 18th, 19th, 20th and 21st of October. I was requested by the Committee to address you this communication, calling your attention to the importance of beginning now to make preparations for this Fair.

It will be remembered that the Fair of 1869, the first after the lapse of nine years, was held under many difficulties. Every thing was built up from the beginning—all our preparations were of necessity hastily made. Only a short time was allowed us to put our grounds in order, grade our track, erect our buildings, select our judges and advertise our premium lists. No large sums from State or City Treasuries were placed, as in Virginia and Maryland and other States, at our disposal. With the exception of fifteen hundred dollars from the State and the gift of our lands by the City of Raleigh, our sole resource was the voluntary contributions of the friends of the Society. The execution of the task seemed so hopeless, that, on account of this uncertainty, but few things, animate or inanimate, were "got up" especially for the occasion. Exhibitors were forced to hurry in their contributions without that careful previous adotment, usually bestowed, which so attracts the admiration of the spectator.

Then, again the unfortunate occurrence of untoward weather, diminished the number of visitors, cooled the interest and pleasure of those who attended, and deranged in no small degree our plans.

Notwithstanding all our difficulties and trials, it was admitted that the Fair was a success. The show of animals and articles compared favorably with those of old times, the number of visitors was unexpectedly large, order and decorum remarkably preserved. The Society meetings were spirited, interesting and instructive. The officers were compensated for all their anxiety and trouble by hearty encomiums for their perseverance and pluck.

The officers of the Society do not claim that no errors were committed. It is well-nigh impossible totally to avoid them, no matter how carefully the judges may perform their duty. If there are any who think they did not obtain full justice in the awards, we hope they will remember first, that by the display of the products of their industry they aided in accomplishing the chief objects of Fairs, the information and enlightenment of the public mind, and secondly that the officers with the experience of 1869, will be able to conduct the Fair of 1870 with greater efficiency in the general management and systematic thoroughness in the examinations for premiums.

The spirit shown in the following extracts of a letter from our good friend, Louis Froelich, of Duplin, whose many very valuable contributions failed to reach us soon enough to be properly placed for exhibition and examination, is so kind and does such credit, we beg leave to quote them:

KENANSVILLE, N. C., Oct. 27, 1869.

KEMP P. BATTLE, ESQ: *Dear Sir:*—I received your letter of the 24th and contents noted. I am sorry myself that you did not receive my letter in time to make better arrangement for exhibition of my articles. But I don't blame you for it. * * * * I am not discouraged and believe that all that will be better next year. I expect to exhibit a much larger list of articles next year, and I will arouse my friends and people in general in this and in the neighborhood counties to do the same. This is the only way to develop the resources of North Carolina. Let everybody show their productions, manufactures and exchange ideas in experiments. The people of North Carolina are thankful to you that you set the ball in the right road and motion. You did more than I or the people could expect. I give you my congratulation for the great success of the Fair.

Hoping to hear some time from you, I remain,

Very respectfully, yours truly,
LOUIS FROELICH.

The Executive Committee intend to make, if possible, the next Fair more attractive than any of its predecessors. Nothing that the officers can do shall be spared to secure this result.

But our labors will not be successful without the active co operation of the people of the State. We appeal to you, fellow-citizens, for this co operation. It will benefit yourselves as much as it will be of advantage to us. We ask you to begin now to prepare articles for exhibition. We ask you to take notes of the mode of preparations of your lands, your manures, your seeding, ploughing, working and the results, so that you can report in detail your operations. In the feeding and management of your stock, have an eye to exhibiting the choice animals at the Fair. Note well the working of machinery and be ready to give the benefit of your experience.

Let every man interest himself in showing to the world a fair sample of North Carolina's resources. We beg all enterprising and observant men, all desirous of promoting the interests of the State, to note all articles of eminent merit and endeavor to have them forwarded to the Fair. *At any rate we ask that the facts be communicated to the undersigned, so that steps may be taken to procure such articles for exhibition.*

There are many things in North Carolina, which, if known abroad, would very materially enhance its reputation and have a tendency to cause an inflow of capital.—For example the rich lands of Hyde produce sixty or seventy bushels of Indian corn to the acre. Col. D. M. Carter promises to bring with him to the next Fair some stalks of this corn whose magnitude will astonish the inhabitants of the uplands.

It is stated by those who know, that in Mitchell County, near Cranberry, apples grow, weighing twenty oz. and more, and that Elk River in Watauga County, can even exceed these. The Irish potatoes raised in Mitchell County are of enormous size, superior quality and wonderfully prolific. We expect to have some of these apples and potatoes at the Fair in October.—How many of our people have heard of large forests of cherry trees, bearing luscious fruit, growing wild on the summit of "Cherry Mountain" in Cleveland, or the great forests of chesnut trees on "Chesnut Ridge" in Surry? We must have essays on these subjects. By all means let us have samples of the beautiful marbles of Cherokee, and of the Cleveland County wheat, said to be equal in quality to any in the world. I feel sure that my friend, Col Harper, of Caldwell, will forward me specimens of the ginseng and other medicinal plants, so abundantly collected there for export to all parts of the world. In our Western counties grow trees which furnish cabinet woods equal in beauty to that cut from the forests of Brazil or Nicaragua. What enterprising mountaineer will furnish us full specimens?

And so I might go on *ad infinitum*, enumerating wonderful things, which can be found within our limits—in the field,—in the forests—on the surface of the earth, and hid in its bosom, the productions of nature and the fabrics of art, which, if gathered together, would prove North Carolina to be as she is, the Central State of the Union, the happy compromise of climate and soil, destined at no distant day to become wealthy and populous and strong.

There is nothing that will create interest and develope enterprise, more than the establishment and successful conduct of District and County Societies. The friends of the State Society extend a cordial greeting to them all believing that by harmonious co-operation, all will be benefitted.—By carefully providing against any conflict in the times of holding the Fairs so that the exhibitions at one place can be transferred to another, not only will there be no clashing of interests, but all will be promoted by the general rousing of the public attention, by breaking up the lethargy of our home loving farmers and mechanics, by inciting all to an honorable desire to excel.

Citizens of North Carolina, one and all. Let us do what we can for the honor and prosperity of our kind old mother. Let us come together each with specimens of her productions, with the fabrics of her children, seeking by laudable emulation to stimulate ourselves and others to efforts after greater results. Remember that the great world is moving on and will not wait for us if we lag behind. Unless we bring intelligence and industry and unfailing courage to aid us in the struggle, our competition will be fruitless. Elsewhere we witness the triumphs of organized effort in the field of agriculture, and of all the industrial arts. Elsewhere we see man's intelligence quickening into life inanimate machinery and by its potent aid subduing the forces of nature. Let us press forward with like energy of muscle and brain, to undergo our part of the toil and gain our share of the glory.

Very Respectfully,
KEMP P. BATTLE,
President.

FURTHER FROM THE RICHMOND DISASTER.

RICHMOND, April 28.—To day all the houses of business have been closed, having crape on the doors and the inscription, "closed in consequence of the calamity at the Capitol."

The streets have been filled all day with funeral cortèges in the funeral cortèges of dead policemen, both sets of policemen join.

The late political feeling seems to have been forgotten, bells of the city were tolled all day, and the streets look like Sunday. A crowd of about 7 000 people is now assembling in the park hearing addresses of condolence from Gov Walker, Judge Ould, Judge Crump, Gov Wise and others delivered from the Southern portico of the Capitol.

Thos. S. Baldwin, one of the injured, died today. He was from Newark, N J. and owned a large clothing House here. This is the only loss which has occurred since yesterday.

Both Houses of the Legislature held an informal meeting this morning, and agreed to unite with the citizens in any general funeral procedure.

The body of the colored Senator, Bland, was sent home this forenoon, the hearse being followed by white and co ored members of the Senate to the Depot.

EX-GOV. Wells is better to-day.

Thursday Night Dispatches.

FROM RICHMOND.

RICHMOND, April 28.—This afternoon has been one funeral. In some of the Church's 3 or 4 bodies were before the altar at the same time. Many of the ministers denounced the careless ness of modern architecture which placed in jeopardy the lives of citizens, on nearly every principal street of the city.

As the funeral processions were going to the cemeteries all business was suspended. The offices of the *Dispatch, State Journal* and the other newspaper offices were hung in mourning.

The flags on the Capitol, Custom House and all public buildings and all the vessels in the harbor were at half mast.

The Railroad trains coming into the city were covered with emblems of mourning, and many of the trucks and carts through the streets were also draped.

At all the funerals the old organizations to which the deceased belonged turned out. At one the State Grand Temperance Division now in session here, followed the corpse to the cemetery.

At a mass meeting of the citizens to-day, resolutions were passed expressing profound sorrow for the great loss sustained by the city and offering sympathy to the bereaved, and that the 4th of May be set apart as a day of humiliation and prayer, and recommending the people to assemble at their Churches for religious service.

Expression of sympathy are coming from all quarters, accompanied by offers of pecuniary aid. A New York merchant authorizes a draft on him for $1,000.

No more of the wounded have died, and their condition is no worse.

Gov. Walker has received a telegram from the Illinois Constitutional Convention, informing him that the Convention had adopted resolutions of sympathy and regret. A suitable reply was returned by the Governor.

A dispatch says that Fredricksburg has closed her business houses and the bells of the city were tolled all day. The merchants of Fredericksburg are arranging means to raise funds for the sufferers.

WASHINGTON.

The Senate confirmed H. L. Pike, as Consul General at Tampico.

SENATE.—A petition was presented to strike the word "white" out of the naturalization laws.

A bill was introduced to relieve with certain exceptions, all persons engaged in the rebellion from disabilities imposed by the 14th amendment.

The exceptions are all persons formerly in Congress, in the army or navy, who aided in the rebellion and all members of secession State Conventions.

The contested election of Gilbert, of Fla., was decided in his favor.

A bill passed to change the place of holding the U S. District Court for the Albemarle District in N. C.

HOUSE.—The Sub-Committee on elections reported that Adolph Baily is not entitled to a seat and C. B. Darrell is, as representative of the 3rd Louisiana district. Kerr made a minority report.

The bill creating a Department of Justice, passed.

The contested election in the 5th Louisiana District was taken up and a resolution that there had been no lawful election passed.

The tariff bill was resumed. A paragraph was inserted fixing the duty on the Railroad iron at 60 cents per hundred pounds.

WILMINGTON NORTH CAROLINA LIFE INSURANCE COMPANY.

BOARD OF DIRECTORS:

JOHN DAWSON, B. F. GRADY,
ALEXANDER JOHNSON, JR., DR. C. T. MURPHY,
CAPT. JOHN E. SPEARMAN, COL. L. A. POWELL,
CAP. I. B. GRAINGER, H. R. EILERS,
GEORGE W. WILLIAMS.

OFFICERS OF THE COMPANY:

JOHN DAWSON.....President.
B. F. GRADY.....Vice President and Treasurer.
ALEXANDER JOHNSON, JR.....Secretary.
DR. E. A. ANDERSON.....Medical Director.
WM. A. WRIGHT AND C. M. STEDMAN.....Attorneys.
HON. ELIZUR WRIGHT.....Consulting Actuary.
REV. B. F. MARABLE.....General Supervising Agent.

THE PRINCIPAL OFFICE OF THE COMPANY IS LOCATED IN WILMINGTON, NORTH CAROLINA, No. 5, NORTH FRONT STREET.

THIS COMPANY WAS CHARTERED BY THE LEGISLATURE OF NORTH CAROLINA IN February 1869. The Charter is perpetual, and is very liberal in its provisions.

CAPITAL STOCK $300,000,

WITH PRIVILEGE TO INCREASE IT TO

$1,000,000.

The Board of Directors beg leave to say to the people of North Carolina, that this is emphatically A "HOME INSTITUTION." The Stockholders are all North Carolinians; the members of the Board of Directors are all North Carolinians; the officers of the Company are ALL NORTH CAROLINIANS; and the Agents of the Company are all North Carolinians.

Most of the States of the Union, in which Insurance Companies are located, require a heavy deposit from Companies located in other States before being allowed to do business in them; and the Board of Directors of this Company, believing that it was nothing more than "EVEN HANDED JUSTICE" that the Legislature of North Carolina should pass a law requiring such Companies located outside of this State to make a deposit with the Treasurer of the State before being allowed to do business in it, petitioned the Legislature at its late session for the passage of such a law; but that Honorable body turned a deaf ear to our humble petition and refused to do so. Now, we humbly submit that if it is just and right that Insurance Companies LOCATED IN NORTH CAROLINA should be required to make a deposit with the Treasurer of any of her sister States before being allowed to do business in them; then it is equally just and right that Insurance Companies located in such sister States should be required to make a deposit with the Treasurer of North Carolina before being allowed to do business in this State. The Legislatures of other States afford

PROTECTION TO THEIR INSURANCE COMPANIES,

and why in the name of common justice should not the Legislature of North Carolina do the same thing? Has the time not yet come when the "Rip Van Winkle of the South" should wake up? Are the people of the "Good Old North State" to remain forever behind their neighbors in the MARCH OF IMPROVEMENT? Why is it that we cannot establish Institutions of our own and protect and support them, and thereby keep our money at home to benefit our own people in the same manner that the citizens of other States do? Look at the hundreds of thousands of dollars which go out of the pockets of the people of North Carolina annually, to enrich the Insurance Companies and benefit the people of other States; and what is worse than all, it goes to benefit the people of States which refuse to allow NORTH CAROLINA INSURANCE COMPANIES to do business in them without making a heavy deposit. We have not a single word to say against the insurance Companies of other States; but as the Legislature of other States afford protection to their Insurance Companies, when such companies in this State are refused protection by our Legislature, we humbly submit that it is the duty of the people of the State to patronize and SUSTAIN OUR OWN COMPANIES; for by doing this they are but simply doing justice to themselves.

The Board of Directors and Officers of this Company assure the people of North Carolina that the Company commences the work of Life Insurance upon a SOUND AND RELIABLE BASIS; and they hereby pledge their honor that the management of the affairs of the company shall be such as will give perfect security and safety to all who may patronize it.

Our Table rates were calculated by the Hon. Elizur Wright, the world-renowned Actuary, and may be relied upon as being correct.

This being a "HOME INSTITUTION," we have no long list of Directors and Stockholders, composed of distinguished gentlemen of other States to spread before you; but we have a respectable list of Stockholders, all of whom are North Carolinians, and a large portion of them will be recognized as being some of the BEST CITIZENS OF THE STATE. Nor have we a long array of names of eminent gentlemen abroad to refer to; but we respectfully refer to the good citizens generally of this community.

THE MOST SUCCESSFUL CASH COMPANY IN THE WEST!

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern Institution.

The DE SOTO has no desire to exalt its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same fields, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, James P. Lucas, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens as men of capital, financial ability and experience; men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

Medal Awarded by the Paris Exposition, 1867.

THE AMERICAN COMBINATION Button Hole & Sewing Machine

Has been honored with the *highest award* in premiums and diplomas *wherever* entered for competition at *fairs* and *exhibitions* held during the past season.

THE SIMPLICITY, EASE AND CERTAINTY with which this machine operates, as well as the uniform excellence of its work, throughout the entire range of Sewing, in

Stitching, Hemming, Felling, Tucking, Cording, Braiding Quilting, Gathering & Sewing on, Overseaming, Embroidering on the Edge, and its Beautiful Button-Hole and Eyelet Hole Work,

Place it unquestionably far in advance of any other shuttle machine in existence.

It is also the CHEAPEST intrinsically, as well as the BEST, since it is really TWO MACHINES combined in one, (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity,) making either the Lock Stitch or Button-Hole Stitch, as occasion may require. It is, at the same time, simple in construction, comparatively noiseless, easily understood, and in a word, it combines with these ADVANTAGES, EXCLUSIVELY ITS OWN, THE MOST DESIRABLE QUALITIES OF ALL OTHERS.

The public are invited to examine this remarkable machine at MRS. THOMPKINS' Boarding House, (Mrs. Thompson's old stand,) Fayetteville Street, and at Watson's Photographic Gallery.
